

Sinclair Broadcasting is forcing their stations to air an anti-Kerry documentary in prime time days before the election. Because they CALL it a "newscast" doesn't mean it is one. It is what it is - a last minute partisan smear attack injected to promote the Smith brothers' political point of view and as such is a flagrant abuse of the public trust.

Airing a blatantly partisan film as scheduled content over PUBLIC AIRWAYS days before an election is against FCC regulations and FEC election law and, therefore, illegal, isn't it?. I call upon you, as the American people's watchdog and protector of OUR airways to enjoin Sinclair Broadcasting from taking this illegal action. Also, please consider their record in this regard when their license comes up for renewal.

Thank you.
